Person id	Problem	App/website found	Likes	Don't like	Improvements
1	Not able to manage expenses	Expense tracker	Gives analysis in graph	Doesn't take multiple currencies and taxes separately	Can take bills and segregate expenses into multiple sections and graph them to analyze
2	Not able to do surveys	YouTube survey	Can give percentage of votes	Only subscribers participate	Need a separate section for surveys and needs to be transparent to everyone
3	Message privately	Instagram	Can send message and snaps, videos etc..	Can't hide profile picture to anyone and can't open friend's profile picture	Need to make it an option whether to show or hide profile picture and should be able to maximize the profile picture
4	Period tracking while travelling	Clue	Tracks and predicts the next period	Doesn't store last month details when logged out and logged in again	It needs a database to store previous month details and maintain its own time and convert to country time when needed.
5	Workout calories tracking	Dumbbell workout for women	Gives home exercise and graphs the workouts	Doesn't suggest food to eat according to the workout we do, and doesn't notify to remind	Should give food suggestions and track the calories and notify on regular basis to exercise and take food.
